5 Beauty Questions Every Mom Must Ask Herself

1. Are you embarrassed about your smile?
2. Do you feel anxious when you laugh out loud or talk to people?
3. Are you ashamed of the way your teeth look?
4. Are they crooked, stained, broken or even missing?
5. Do you wish you had a prettier smile?

If your answer is "yes" to any of the above questions, then you're just like the hundreds of other women in YOUR TOWN who were frustrated, but now have discovered how to obtain the perfect smile and transform their lives forever.

Most women with problem teeth are ashamed to smile or laugh out loud because they are embarrassed by their smile. Many of these women often have feelings of despair and learned hopelessness. Meaning they don't realize that things CAN change... so they have resigned to accepting the status quo.

They may feel that people are laughing at them behind their back or worse judging them based solely on their appearance.

That's why we decided to blow the lid off the cosmetic dentistry "secrets" with a limited release report:

"How Busy Moms Can Have A Drop Dead Gorgeous Smile In As Little As 14 days Or Less!"

In this exclusive report, you'll discover everything you need to know to have a Drop Dead Gorgeous Hollywood Smile without Stress or Anxiety!

Many women are skeptical (as they should be) at such a bold promise, but they are shocked and delighted with their glamorous new smile, and new found sense of confidence and joy.

3 Kinds Of Moms Who Benefit From This Free Booklet

We've found a commonality amongst the women who benefited the most from this FREE BOOKLET.

Mom #1: The mom trying to balance a busy schedule between work and home. Never has time for herself.

Mom #2: Running the kids from one event to the next, preparing meals, and trying to squeeze in a spare moment for herself.

Mom #3: The mom that just sent the kids off to college and NOW is ready to do something for herself.

No matter which category you fall in (or if we missed one), we've discovered that they feel, after they take care of everyone else there is very little time left for themselves.

Are You Putting Off Your Own Desires... Unnecessarily?

Many of these people wanted to have a more attractive smile, feel and look younger, for a very long time but have just been putting it off... when they really have to!

They had tried different ways to improve the look of their smiles by trying out over the counter whitening strips with little or no success. *They searched for years, to find a*

solution but never had any luck.

Nothing seemed to work for them. They had given up hope and some even thought it was all their fault or something was wrong with their teeth. Then they discovered that there was a solution that changed their lives virtually overnight. Their answers and the answer to your smile problem or desire can be found in a Free Booklet that we will be happy to send to you!

The Free Booklet is sponsored by Dr. **YOUR NAME**, of **Name Of Your Practice**, who created this booklet as a way to help the public inform themselves of what is available to them. There is no cost and no strings attached. See below for more details!
